

Healthy Heart Africa Programme

Healthy Heart Africa (HHA) is AstraZeneca's programme to tackle hypertension across Africa.

HHA in numbers

HHA has achieved a number of key milestones since launching in October 2014:

5.7
MILLION

Blood pressure screenings in
the community and in
healthcare facilities

OVER
5,000

Trained healthcare workers,
including doctors, nurses, pharmacists
and community health volunteers

675

Healthcare facilities have been
activated in Africa

OVER
1
MILLION

Number of people
identified living with
high blood pressure

10
MILLION

Number of people with high
blood pressure across
Africa that HHA aspires to
reach by 2025

AstraZeneca data on file. Total programme numbers since start – as of 31st December 2017.
